CONTENTS

1 - IRRIGATION AND LAND DEVELOPMENT

- 1. Hydro-agricultural development.....8
- 2. Land improvement and rainwater collection18

2 - EQUIPPING FARMS

- 1. Acquisition of agricultural equipment24
- 2. Acquisition of breeding equipment.....30
- 3. Building of livestock facilities.....33
- 4. Acquisition and installation of greenhouses for agricultural production.....34
- 5. Nets for the protection of vegetable crops under anti-insects greenhouses.....35
- 6. Anti-hail protection nets for fruit plantations36

3 - GENETIC IMPROVEMENT

- 1. Production of selected breeders.....40
- 2. Acquisition of camel breeders and imported heifers43
- 3. Production of selected queen bees.....44

4 - CERTIFIED SEEDS AND PLANTATIONS

- 1. Certified seeds..... 48
- 2. Sugar cane plantations..... 50
- 3. Fruit farming 51
- 4. Laboratory analysis..... 56

5 - VALORIZATION UNITS

- 1. Agricultural products optimization units 60
- 2. Cooperatives Milk Collection Centers..... 63

6 - EXPORT PROMOTION

- 1. Export Promotion and diversification of agricultural products of crop origin 68
- 2. Exports Promotion and diversification of agricultural products of animal origin..... 71
- 3. Exports Promotion via air routes..... 72

7 - AIDS TO AGGREGATION PROJECTS

- 1. Irrigation and equipping with agricultural equipment..... 76
- 2. Lump sum subsidy..... 85

IRRIGATION AND LAND DEVELOPMENT

1. HYDRO-AGRICULTURAL DEVELOPMENT

a. Percentage and ceilings

> Individually achieved localized irrigation projects and additional developments

OPERATION	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING IN DH
1 - LOCALIZED IRRIGATION PROJECTS		
Drilling and casing of wells	80%	1 100 DH/Linear meter deep
Drilling and casing of boreholes		2 000 DH/Linear meter deep
Supply and installation of water pumping equipment, including accessories for the pumping installation, civil engineering works and shelter buildings for pumping stations		4 000 DH/KW installed power
Development of irrigation water storage basins, including lining		35 DH/m ³ storage capacity
Supply and installation of the equipment of the main station: irrigation water filtration, fertigation, connection accessories, control and regulation equipment, automation equipment (equipment for remote control of valves, anti-pool filters, fertigation management, pump control, remote water control and counting) including shelter construction for the main station		5 600 DH/equipped hectare
Supply and installation of supply and distribution pipes of irrigation water, including connection accessories and control and regulation equipment		9 600 DH/equipped hectare
Supply and installation of pipes and irrigation water distributors, including connecting accessories		13 600 DH/equipped hectare
2 - ADDITIONAL DEVELOPMENTS		
Water storage basins	80%	35 DH/m ³ storage capacity
Adaptation of the existing localized irrigation system within the framework of the densification of tree plantations		13 600 DH/equipped hectare

The subsidy amount that can be granted is limited to **36 000 DH** per equipped hectare. In the event of the need to resort to the building of basins for irrigation water storage, this ceiling can be increased by an amount corresponding to the fixed ceiling in the above table for the development of water storage basins. This increase cannot on any account exceed the ceiling of **16 000 DH** per equipped hectare.

> Localized irrigation projects within the framework of collective projects or per small-scale farmers and additional developments

OPERATION	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING IN DH
1 - LOCALIZED IRRIGATION PROJECTS		
Drilling and casing of wells	100%	1 400 DH/Linear meter deep
Drilling and casing of boreholes		2 500 DH/Linear meter deep
Supply and installation of water pumping equipment, including accessories for the pumping installation, civil engineering works and shelter buildings for pumping stations		5 000 DH/KW installed power
Development of irrigation water storage basins, including lining		- For small-scale farmers (5 ha and less): 60 DH/m ³ storage capacity - For other farmers: 40 DH/m ³ storage capacity
Supply and installation of the equipment of the main station: irrigation water filtration, fertigation, connection accessories, control and regulation equipment, automation equipment (equipment for remote control of valves, anti-pool filters, fertigation management, pump control, remote water control and counting) including shelter construction for the main station		- For small-scale farmers (5 ha and less): 11 000 DH/equipped hectare - For other farmers: 7 000 DH/equipped hectare
Supply and installation of supply and distribution pipes of irrigation water, including connection accessories and control and regulation equipment		12 000 DH/equipped hectare
Supply and installation of pipes and irrigation water distributors, including connection accessories		17 000 DH/equipped hectare
2 - ADDITIONAL DEVELOPMENTS		
Water storage basins	100%	- For small-scale farmers (5 ha and less): 60 DH/m ³ storage capacity - For other farmers: 40 DH/m ³ storage capacity
Adaptation of the existing localized irrigation system within the framework of the densification of tree plantations		17 000 DH/equipped hectare

The subsidy amount that can be granted is limited to **45 000 DH** per equipped hectare. In the event of the need to resort to the building of basins for irrigation water storage, this ceiling can be increased by an amount corresponding to the fixed ceiling in the above table for the development of water storage basins. This increase cannot on any account exceed the ceiling of **20 000 DH** per equipped hectare.

> Supplementary irrigation projects

OPERATIONS	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING IN DH
Drilling and casing of wells	50%	800 DH/Linear meter deep
Drilling and casing of boreholes		1 200 DH/Linear meter deep
Supply and installation of water pumping equipment, including pumping accessories, civil engineering works and shelter buildings for pumping stations as well as water counting equipment		2 500 DH/KW installed power
Development of irrigation water storage basins, including lining		20 DH/m ³ storage capacity
Supply and installation of the equipment of irrigation water filtration and fertigation including shelter construction		3 500 DH/equipped hectare
Supply and installation of supply and distribution pipes for irrigation water, sprinklers, pivots, center pivot irrigation machine, reels for any similar irrigation system		8 000 DH/equipped hectare

The subsidy amount that can be granted is limited to **20 000 DH** per equipped hectare. In the event of the need to resort to the building of basins for irrigation water storage, this ceiling can be increased by an amount corresponding to the fixed ceiling in the above table for the development of water storage basins. This increase cannot on any account exceed the ceiling of **10 000 DH** per equipped hectare.

b. Compiling of subsidy application file

> Localized or supplementary irrigation projects

1 - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the irrigation project for the equipment of agricultural properties with localized and supplementary irrigation systems, the applicant submits an examination application file of the irrigation project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card of the applicant.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the ownership of the land plot subject to the project investment.
- The technical file of the project, which must contain the following elements:
 - > A signed and stamped calculation note of the project showing the note approved by the engineer having conducted the study as well as bearing the references of the company that carried out the project study.
 - A true certified copy of the qualification or approval certificate of the company or the consulting firm having carried out and approved the calculation note.
 - With regard to the companies and consulting firms not established in Morocco, the abovementioned qualification or approval certificate can be replaced by an equivalent document issued by the competent authorities of the home country or, where necessary, when there is no equivalent document duly justified by the company, a note about the know-how and capacities of the company to carry out the required studies supported by human and material resources, technical and financial references and the certificates of good completion.

- > A detailed plan of the installation at an appropriate scale.
- > A detailed plan of the basin at an appropriate scale.
- > With respect to the basins of the total capacity of more than 10 000 m³, a report of the basin stability, implementation process and securing devices.
- > A plan of shelters specifying their expected dimensions and construction materials.
- > A dimensioned drawing if the relief is significant.
- > An estimate of equipment, materials and developments.
- > A true certified copy of the qualification of the businesses having elaborated the estimates and which will initiate the implementation of the works.
- > Affidavit of a supplier or (s) to comply, in case of localized irrigation projects, with the provisions laid down in the specifications, subject to the Moroccan Norm N. 12.1.100-2007 (localized irrigation installation- general requirements).
- > Test bulletins of hydraulic performances of the meters of irrigation systems and polyvinyl and polyethylene chloride pipes stipulated in the project (ducts with built-in drippers, drippers, calibrated nozzles, micro jets, mini diffusers and

sprinklers), issued since less than two years, by the experimentation, test and standardization department of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.

- > Catalogs of pumping and filter units stipulated by the project.
- Supporting documents of the eligibility to the 100% rate for the localized irrigation and 70% for the supplementary irrigation according to the case:
 - > For small-scale farmers eligible for the 100% subsidy rate for localized irrigation, the documents proving that the applicant exploits only an area less than or equal to five (5) hectares and a duly signed and authenticated declaration on oath testifying that he owns and exploits at the national scale only an area less than or equal to 5 ha.
 - > A certificate issued by the Department of Agriculture testifying that the applicant's farm, subject to the examination application, complies with a collective reconversion project for localized irrigation initiated or authorized by the State.

CASES OF INVESTMENTS CARRIED OUT BY THE AGRICULTURAL WATER USER ASSOCIATIONS (AUEA) OR GROUPINGS OF FARMERS FOR COLLECTIVE PROJECTS OF LOCALIZED IRRIGATION

In the event of localized irrigation projects carried out by a grouping of farmers or by an AUEA for the benefit of member farmers, the subsidies are awarded in line with the rates and ceilings by component and total on the basis of the total area of the project. It is understood that for collective irrigation projects whose average area per member is less than or equal to 5 ha, the component pertaining to the main station benefits from a ceiling of 11 000 DH per equipped hectare.

In addition, localized irrigation projects can benefit from technical assistance of the Civil Service and simplifications for the compiling and appraisal of subsidy applications that will be defined within the framework of an agreement between the Civil Service and the beneficiaries in line with a procedure adopted by the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.

2 - SUBSIDY APPLICATION

- Certificate of preliminary approval issued by the Single Desk.
- A subsidy application form.
- Detailed final invoices for the achieved works, equipment and developments and, when the need arises, reports pertaining to the excavation works of trenches and the drilling of wells, conducted by the farmer's own means.
- An affidavit of the applicant to conserve the investment and keep it in a good operating state during at least five (5) years, as of the date of the implementation report of the works.
- Certificate of the applicant's RIB.

> Projects of supplementary developments: water storage basin

1 - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the project of supplementary development, the applicant submits an examination application file of the irrigation project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card of the applicant.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the ownership of the land plot subject to the project investment.
- The technical file of the project:
 - > A note proving the need to resort to the development of the water storage basin to improve water supply conditions of the developed properties via localized irrigation systems.
 - > A descriptive note of the existing equipment of localized or additional irrigation
 - > A calculation note of the project of additional development containing also the basin design and proportioning.
 - > A detailed plan of the basin at an appropriate scale.
 - > With respect to the basins of a total capacity of more than 10 000 m³, a report of the basin stability, implementation process and securing devices.
 - > These notes and plans must be signed and stamped, showing the note approved by the engineer who conducted them as well as bearing the references of the company that carried out the project study.
 - > A true certified copy of the qualification or approval certificate of the company or the consulting firm having carried out and approved the calculation note.
 - > With regard to the companies and consulting firms not established in Morocco, the abovementioned qualification or approval certificate can be replaced by an equivalent document issued by the competent authorities of the home country or, where necessary, when there is no equivalent document duly justified by the company, a note about the know-how and capacities of the company to carry out the required studies supported by human and material resources, technical and financial references and the certificates of good completion.

- > Estimates of the basin implementation, water-toughness works and related equipment.
 - > A true certified copy of the qualification of the businesses having elaborated the estimates and which will initiate the implementation of the works.
- Supporting documents of the eligibility to the 100% rate for the localized irrigation and 70% for the supplementary irrigation according to the case:
 - > For small-scale farmers eligible for the 100% subsidy rate, the documents proving that the applicant exploits only an area less than or equal to five (5) hectares and a duly signed and authenticated declaration on oath testifying that he owns and exploits at the national scale only an area less than or equal to 5 ha.
 - > A certificate issued by the Department of Agriculture testifying that the applicant's farm, subject to the examination application, complies with a collective reconversion project for localized irrigation initiated or authorized by the State.

2 - SUBSIDY APPLICATION

Following the implementation of his project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Certificate of preliminary approval.
- A subsidy application form.
- Detailed final invoices for the achieved works, equipment and developments and, when the need arises, reports pertaining to the excavation works of trenches and the drilling of wells, conducted by the farmer's own means.
- An affidavit of the applicant to conserve the investment and keep it in a good operating status during at least five (5) years, as of the date of the implementation report of the works.
- Certificate of the applicant's RIB.

> Supplementary development projects: adaptation of the existing localized irrigation system within the framework of the densification of tree plantations

1 - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the supplementary development project, the applicant submits an examination application file of the irrigation project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card of the applicant.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the ownership of the land plot subject to the project investment.
- The technical file of the project, which must contain the following elements:
 - > A signed and stamped calculation note of the project showing the note approved by the engineer having conducted the study as well as bearing the references of the company that carried out the project study.

- > A true certified copy of the qualification or approval certificate of the company or the consulting firm having carried out and approved the calculation note.
- > With regard to the companies and consulting firms not established in Morocco, the abovementioned qualification or approval certificate can be replaced by an equivalent document issued by the competent authorities of the home country or, where necessary, when there is no equivalent document duly justified by the company, a note about the know-how and capacities of the company to carry out the required studies supported by human and material resources, technical and financial references and the certificates of good completion.

- > A detailed plan of the installation at an appropriate scale.
- > Estimates of equipment, materials and developments.
- > A true certified copy of the qualification of the businesses having elaborated the estimates and which will initiate the implementation of the works.
- > Affidavit of a supplier or (s) to comply, in the case of localized irrigation projects, with the provisions stipulated in the specifications, subject to the Moroccan Norm N. 12.1.100-2007 (localized irrigation installation- general requirements).
- > Test bulletins of hydraulic performances of the meters of irrigation systems and polyvinyl and polyethylene chloride pipes stipulated in the project (ducts with built-in drippers, drippers, calibrated nozzles, micro jets, mini diffusers and sprinklers), issued since less than two years, by the experimentation, test and standardization department of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.
- Supporting documents of the eligibility to the 100% rate for the localized irrigation:
 - > For small-scale farmers eligible for the 100% subsidy rate, the documents proving that the applicant exploits only an area less than or equal to five (5) hectares and a duly signed and authenticated declaration on oath testifying that he owns and exploits at the national scale only an area less than or equal to 5 ha.
 - > A certificate issued by the Department of Agriculture testifying that the applicant's farm, subject to the examination application, complies with a collective reconversion project for localized irrigation initiated or authorized by the State.

2 - SUBSIDY APPLICATION

Following the implementation of his irrigation project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- A subsidy application form.
- Detailed final invoices for the achieved works, equipment and developments and, when the need arises, reports pertaining to the excavation works of trenches and the drilling of wells, conducted by the farmer's own means.
- An affidavit of the applicant to conserve the investment and keep it in a good operating status during at least five (5) years, as of the date of the implementation report of the works.
- Certificate of the applicant's RIB.

2. LAND IMPROVEMENT AND RAINWATER COLLECTION

a. Percentage and ceilings

OPERATIONS	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING
1- Deep rocks removal ⁽¹⁾	30%	7 000 DH/ha
2- Rainwater collection ⁽²⁾	50%	2 500 DH/ha

(1) « Opération d'épierrage de profondeur » : cette opération consiste en la réalisation à la fois de travaux de défoncement mécanique du sol, de fragmentation des blocs rocheux, leur ramassage et leur évacuation jusqu'aux limites de la parcelle aménagée.

(2) « Système de collecte des eaux pluviales » : les aménagements, à caractère définitif, permettant de retenir et de stocker l'eau des précipitations dans le sol. Ces systèmes peuvent comprendre les aménagements des terres à des fins d'amélioration de la productivité agricole sous forme de banquettes, de murettes ou de cordons en pierres sèches.

b. Compiling of financial aid application file

> Deep rocks removal

1 - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the project of deep rocks removal, the applicant submits a file of preliminary examination application of the project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application of the project.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for legal entities designating the persons entitled to act in their name.
- An authenticated declaration on oath testifying that the land plot to be developed has never benefited from the state aid for the works of deep rocks removal, be it within the framework of state projects or achieved by the farmer himself and for which subsidies were previously granted.
- The administrative documents proving the legal link of the applicant with the property, subject to investments.

2 - SUBSIDY APPLICATION

Following the implementation of the works, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents.

- Preliminary approval certificate of the project.
- A subsidy application form.
- Final invoices of the achieved works or detailed estimates when these works are carried out by the farmer himself. These invoices and estimates must specify the location and area of the land plot, subject to the works, consistency of the works and the nature of the used gear.
- An affidavit of the applicant to conserve the investment for at least five (5) years as of the date of the report of the work completion.
- As per the farms of more than five (5) hectares: a topographic plan of the developed farm, along with Lambert coordinates, specifying particularly the area of the farms and the part subject to rocks removal.
- Certificate of the applicant's RIB.

> Rainwater collection

1 - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the project pertaining to rainwater collection, the applicant submits a file of preliminary examination application of the project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card of the applicant.
- A true certified copy of the statutes and legal documents for legal entities designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the property, subject to the project investments.
- An authenticated declaration on oath testifying that the land plot to be developed has never benefited from the state aid for the works of rainwater collection, be it within the framework of state projects or achieved by the farmer himself and for which subsidies were previously granted.
- A sketch of the farm showing the location of improvements to be introduced and the area of the land plot (s), subject to the works and the density of works.

2 - SUBSIDY APPLICATION

Following the implementation of the project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- A subsidy application form.
- Final invoices of the achieved works or detailed estimates when these works are carried out by the farmer himself.
- An affidavit of the applicant to conserve the investment for at least five (5) years, as of the date of the report of the work implementation and use it within conditions ensuring its full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- | | |
|-------------------|-------------------------------------|
| · Category 1 (C1) | 20 business days |
| · Category 2 (C2) | 12 business days |
| · Category 3 (C3) | 5 business days |
| · NS | not subject to preliminary approval |

2- DEADLINES OF THE IMPLEMENTATION OF INVESTMENTS AND SUBMISSION OF SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	DEADLINE OF FILE SUBMISSION	
C1	Individually achieved irrigation projects	24 months	Starting from the date of preliminary approval
	Achieved irrigation projects collectively and/or per section	30 months	
	Land improvements	12 months	

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

EQUIPPING FARMS

1. ACQUISITION OF AGRICULTURAL EQUIPMENT

a. Percentage, ceilings and norms

EQUIPMENT	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING DH/UNIT	NORMS
Agricultural tractor	30%	72 000	1 unit per an area of less than 5 ha 2 units per an area from 5 ha to less than 10 ha 3 units per an area of 10 ha to less than 20 ha 4 units per an area of 20 ha to less than 50 ha 5 units per an area of 50 ha to 100 ha 1 unit per all 100 ha beyond 100 ha
Labor and maintenance equipment of the towed soil including the roller except for the cover crop	30%	17 000	4 units per tractor
Labor and maintenance equipment of the soil run by the power take-off	30%	72 000	4 units per tractor
Supply equipment and organic manure spreading	30%	48 000	1 unit per tractor
Supply equipment and spreading of minerals	30%	19 000	1 unit per tractor
(simple and combined) seeding and planting equipment	50%	48 000	1 unit per tractor
Phytosanitary processing equipment for plantations	50%	60 000	1 unit per tractor
Phytosanitary processing equipment for arable lands other than plantations	50%	28 000	1 unit per tractor
Direct seed drill	50%	90 000	1 unit per tractor
Self-propelled mower-binder	30%	27 000	1 unit per an area of less than 50 ha 2 units for an area of 50 ha and more
Frost-free windmills	30%	90 000	1 unit per an area less than or equal to 50 ha 1 unit for every additional 5 ha for an area beyond 5 ha
Pheromone Capsules for Tuta-Absoluta (in DH/ha/year)	60%	4 800	
Attractants of adult female Ceratitis for mass trapping for citrus fruits	40%	1 000	Maximum application rate used for the calculation of subsidy per product approved by the ONSSA

EQUIPMENT	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING DH/UNIT	NORMS
Combine harvester	20%	208 000	1 unit for an area from 50 to less than 200 ha 2 units for an area from 200 to 400 ha 1 unit for all additional 200 ha beyond 400 ha
Mowing equipment	30%	17 000	1 unit per tractor
Bundling equipment	30%	36 000	1 unit per tractor
Threshing, windrowing and tilling equipment	30%	17 000	1 unit per tractor
Potato harvester	30%	12 000	1 unit per tractor
Self-propelled beet and sugarcane harvester	30%	720 000	1 unit per an area of 10 ha and more
Sugar beet leaf stripper	30%	70 000	1 unit per tractor
Sugar beet rotary harvester	30%	80 000	1 unit per tractor
Sugar beet pick-up loader	30%	180 000	1 unit per tractor
Mechanical vibrator for harvesting olives	30%	240 000	1 unit for an area of more than 20 ha
Self-propelled harvester for olive	30%	480 000	1 unit for an area from 40 to 100 ha 1 unit for all additional 100 ha beyond 100 ha
Manual vibrator for harvesting olives	40%	6 000	1 unit for less than 3 ha 2 units from 3 to less than 6 ha 3 units from 6 to less than 10 ha 4 units for 10 ha and beyond
Grinder for dates	30%	6 000	

The renewal of self-propelled agricultural equipment, for the same farm, can benefit from the state aid only one time every 10 years.

b. Compiling of financial aid application file

1.1. FILES SUBMITTED BY FARMERS

> Agricultural equipment subject to the agreement in principle

The entire agricultural equipment will be concerned by the application of the agreement in principle, except for Pheromone capsules against Tuta-Absoluta and the attractants of adult female Ceratitis for the mass trapping for citrus fruits.

I - APPLICATION OF AGREEMENT IN PRINCIPLE

Prior to the acquisition of agricultural equipment, the applicant submits a file of preliminary examination application, in duplicate, at the Single Desk. This file includes the following documents:

- An application of the agreement in principle.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for legal entities designating the persons entitled to act in their name.

II - SUBSIDY APPLICATION

Following the acquisition of the agricultural equipment, the applicant submits a file of subsidy application, in duplicate, at the Single desk. This file is comprised of the following documents:

- The original of the agreement in principle.
- An application subsidy.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- Supporting documents of the exploited area for the subsidy applications pertaining to the agricultural equipment concerned by the area norms.
- True certified copies of the log book of the tractors owned by the farmer on the farm for subsidy applications pertaining to the acquisition of towed equipment.
- Detailed final original invoices, showing the technical characteristics of the equipment (serial number, type, power, brand, model...).
- A true certified copy of the log book or the receipt of filing the registration certificate for the agricultural tractor, combine harvester, self-propelled harvester for olives.
- An affidavit of the applicant to conserve the acquired equipment for at least 5 years as of the date of the implementation report, and use them under conditions ensuring their full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

> Agricultural equipment not subject to agreement in principle

After the acquisition of pheromone capsules or attractants of the adult female Ceratitis for the mass trapping for the citrus fruits, the applicant submits a file of subsidy application, in duplicate, at the Single desk. This file includes the following documents:

- A subsidy application.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- Detailed final original invoices.
- Affidavit of the applicant to respect the action plan to fight against Ceratitis decided on by the ONSSA.
- in the event of a group supply of producers, by a legal entity, the concerned producers must present:
 - > A true certified copy of the overall invoice established in the name of the legal entity.
 - > A single delivery slip issued by the legal entity and signed by the beneficiary, specifying the quantity and the corresponding amount.
- Certificate of the applicant's RIB.

1.2. FILES SUBMITTED BY SERVICE PROVIDERS

I - PRELIMINARY APPROVAL APPLICATION AND SIGNING OF SPECIFICATIONS

Prior to the acquisition of the agricultural equipment, service providers submit a file of preliminary approval application, in triplicate, at the Single desk. This file is comprised of the following documents:

- A preliminary approval application.
- The original of specifications duly signed and authenticated by the competent authorities.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents for the legal entities, designating the persons entitled to act in their name.
- True certified copies of log books of tractors owned by the service providers for the subsidy application pertaining to the acquisition of the towed equipment.
- A true certified copy of the diploma of engineer or technician within the agricultural field for natural persons.
- True certified copies of the diplomas of the engineer or technician within the agricultural field for all partnership associates.
- A copy of the trade register for the companies.

- For the legal entities other than partnerships:
 - > A true certified copy of the diploma of engineer or technician within the agricultural field for the directors of legal entities other than partnerships.
 - > A true certified copy of the minutes of the general meeting designating the director of the legal entity other than the partnerships or the employment contract proving his nomination.
 - > A certificate of membership of the staff at the social and retirement security schemes.
- A presentation note of the company indicating the technical skills and human resources mobilized for the project.
- A detailed business plan over a period of 5 years, mentioning the following minimal information:
 - > Annual planned acquisitions and investments as well as their funding mode.
 - > Targeted provinces and regions.
 - > The various types of services to be supplied.
 - > The estimated area and the number of intended farmers, inventoried by province and region.
 - > The estimated price per service type.
 - > Yearly turnover estimates.
 - > Estimates of the project's financial profitability.

II - SUBSIDY APPLICATION

Following the acquisition of the agricultural equipment, the applicant submits a file of subsidy application, in duplicate, at the Single desk. This file is comprised of the following documents:

- An application subsidy form.
- Detailed final original invoices, showing the technical characteristics of the equipment (serial number, type, power, brand, model...).
- A true certified copy of the log book or the receipt of filing the registration certificate for the agricultural tractor, combine harvester, self-propelled harvester for olive.
- An affidavit of the applicant to conserve the acquired equipment for at least 5 years as of the date of the implementation report, and to use them under conditions ensuring their full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

2. ACQUISITION OF BREEDING EQUIPMENT

a. Percentage, ceilings and norms

EQUIPMENT	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING DH/UNIT	NORMS
FARM EQUIPMENT			
Grinder	30%	6 000	1 unit for a farm of less than 20 cattle or less than 80 small ruminants
			2 units for a farm of 20 cattle or more or 80 small ruminants and more
Mixer		15 000	1 unit for a farm of less than 20 cattle or less than 80 small ruminants and more
			2 units for a farm of 20 cattle and more or 80 small ruminants and more
Livestock feed unit attached to the farm		60 000	1 unit for a farm or a cooperative of stockbreeders of more than 50 cattle or more than 200 small ruminants
Flail Forage Harvester		13 500	1 unit for a farm of more than 10 cattle or more than 50 small ruminants
Single-Beam Maize Forage Harvester		16 500	1 unit for a farm of more than 10 cattle or more than 50 small ruminants
Corn Forage Harvester		42 000	1 unit for a farm of more than 20 cattle or more than 100 small ruminants
Self-Propelled Maize Forage Harvester		300 000	1 unit for a farm of more than 200 cattle or more than 1 000 small ruminants or for a cooperative whose exploited total exceeds 500 cattle or 1 000 small ruminants
Straw shredder	105 000	1 unit for a farm of more than 50 cattle or more than 500 small ruminants or for a cooperative of more than 100 cattle or more than 1 000 small ruminants	
ARTIFICIAL INSEMINATION EQUIPMENT			
Seed container	30%	6 000	1 unit for a farm of more than 50 cattle or stockbreeder groupings whose total livestock exceeds 500
Artificial insemination kit		2 000	1 unit for a farm of more than 50 cattle or stockbreeder groupings whose total livestock exceeds 500
Calf puller		2 000	1 unit for a farm of more than 50 cattle

EQUIPMENT	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING DH/UNIT	NORMS
COOLING SYSTEM FOR LIVESTOCK UNITS			
Misting equipment	30%	18 000	1 unit for a building of at least 500 m ²
Pad cooling system for breeding units except for caged laying livestock		30 000	1 unit for a building of at least 500 m ²
Pad cooling system for cage laying units		120 000	1 unit for a building of at least 500 m ²
EQUIPMENT FOR APICULTURAL UNIT			
Inhabited hives	30%	300	-
Extractor		3 000	1 unit for a farm of at least 50 inhabited hives
Honey maturing vessel		3 000	1 unit for a farm of at least 50 inhabited hives
Honey filter		1 800	1 unit for a farm of at least 50 inhabited hives
Beeswax sheet maker		15 000	1 unit for a farm of at least 50 inhabited hives
Wax manufacturing unit		210 000	1 unit for a farm or unit of more than 1 000 inhabited hives
ON-FARM MILKING AND CONSERVATION EQUIPMENT			
Fixed milking machine (Milking parlor 2x4 stations)	30%	60 000	1 unit for a farm of less than 50 dairy cows
Milking machine (milking parlor 10 stations and more) (1)		7 500 DH/ Poste	2 units for a farm of 50 dairy cows or more
Mobile milking unit (2)		3 000	1 unit for a farm of less than 10 dairy cows
Milk containers		15 000	1 unit for a farm of more than 30 dairy cows
Equipment and installation of goat milk valorization unit including a milk reception and storage tank, milk analysis equipment, a pasteurizer, fermentation equipment, curdling, draining and a cold room		100 000	1 unit for a farm of more than 100 dairy cows

(1) The total ceiling per farm of more than 50 dairy cows is fixed at 360 000 DH.

(2) A mobile milk unit must meet the functionality requirements defined by the competent services of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.

The renewal of forage harvesters, straw shredder, milking machines and wax manufacturing units as well as the equipment and installation of goat milk valorization units can tap into the state aid only once every 10 years.

For all forage harvesters, every applicant can benefit only from one of the abovementioned categories.

b. Compiling of financial aid application file

I - APPLICATION OF AGREEMENT IN PRINCIPLE

Prior to the acquisition of breeding equipment, the applicant submits an application of the agreement in principle, in duplicate, at the Single desk. This application includes the following documents:

- An application of the agreement in principle.
- A true certified copy of the ID card for the natural persons or a true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.

For all applications exceeding 100 hives (cumulatively) per apiculturist, the technical service of the Provincial Directorate of Agriculture or the Regional Office of Agricultural Investment must deliver a certificate proving the capacities of the apiculturist through the existence of the hive storage workshop, technical equipment and the necessary honey equipment for the optimization of honey production.

II - SUBSIDY APPLICATION

Following the acquisition of breeding equipment, the applicant submits a subsidy application file, in duplicate, at the Single desk. This file includes the following documents:

- Original of the agreement in principle.
- Subsidy application form.
- A conformity certificate of the breeding equipment.
- Detailed final original invoices of the procurement of breeding equipment.
- An affidavit of the applicant to conserve the acquired equipment for at least five (5) years, as of the date of the implementation report and use them within conditions ensuring their full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB· attestation du RIB du postulant.

3. BUILDING OF LIVESTOCK FACILITIES

a. Percentage and ceilings

FACILITY TYPE	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING IN DH/M ² OF AREA
Modern cowshed: · Covered cowshed for tied-up stalling · Free stalling cowshed	25%	200 50
Traditional cowshed		75
Sheep and goat: · Modern · Traditional		80 60
Shelters for camels		100

Livestock facilities are built for the exclusive use to shelter cattle, sheep and goats in line with the features and type plans approved by the services of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests. The accepted area for the calculation of the subsidy includes the parts used as shelter for animals, ancillary parts such as manger, feeding and service alleys and boxes for young cattle. For free stalling cowshed, the concerned area is the one bounded by the perimeter of the fences.

b. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

Prior to the construction of the livestock facility, the applicant submits a file of preliminary examination application, in duplicate, to the Single desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- A copy of the construction plan.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.

II - SUBSIDY APPLICATION

Following the construction of the livestock facility, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Certificate of preliminary approval.
- A subsidy application.
- A construction contract between the Provincial Directorate of Agriculture or the Regional Office of Agricultural Investment and the applicant.
- Detailed final original construction invoices issued by the contractor or a construction estimate issued by the competent service of the provincial directorate of agriculture or the regional office of agricultural investment.
- Certificate of the applicant's RIB.

4. ACQUISITION AND INSTALLATION OF GREENHOUSES FOR AGRICULTURAL PRODUCTION

a. Percentage and ceilings

Greenhouse components	Subsidy percentage (% of the cost)	Covered subsidy ceiling in DH/m ²
1- Armatures · Metallic greenhouse armatures · Wooden greenhouse armature · Metallic greenhouse armature in the form of a tunnel	10%	9 4 3
2- Couverture de serre en plastique et fil de fer	10%	1

b. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

Prior to the acquisition and installation of the greenhouses, the applicant submits a file of preliminary approval application, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying notably the greenhouse area to be equipped, arable land or lands to be equipped, greenhouse type to be equipped and the project estimate.

II - SUBSIDY APPLICATION

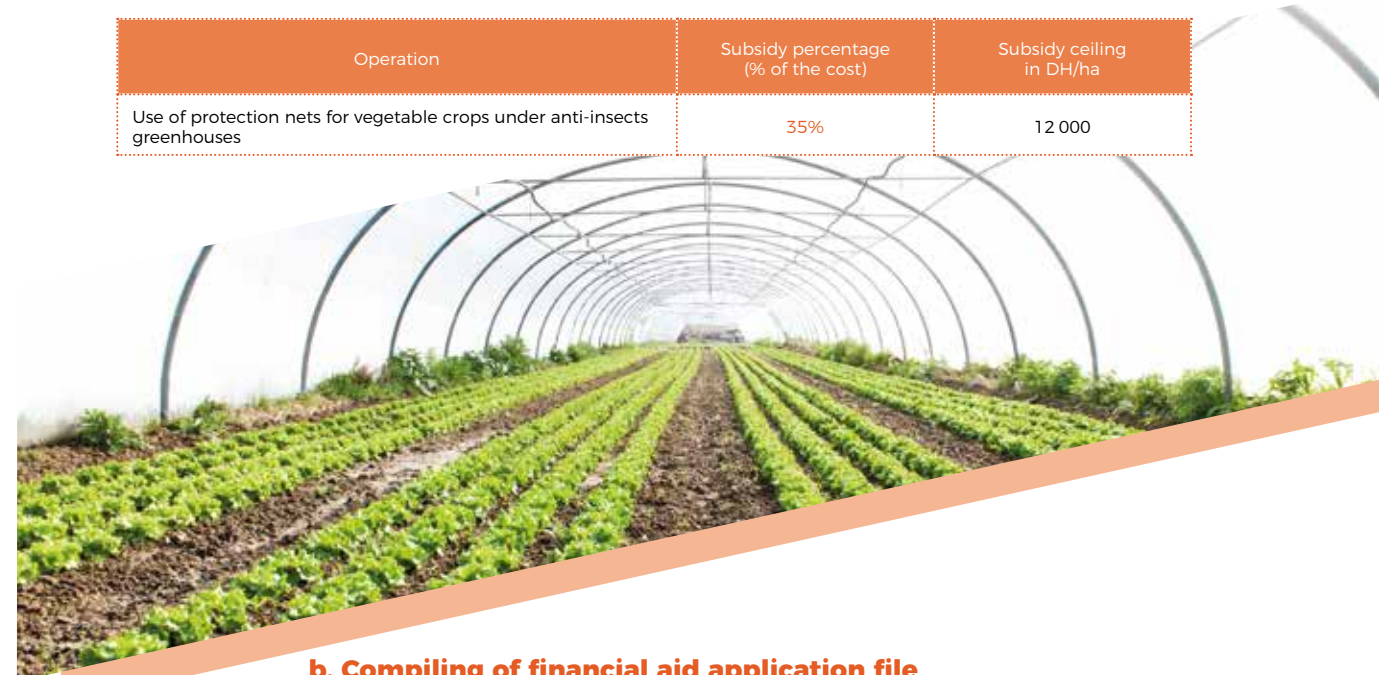

Following the project implementation, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file consists of the following documents:

- Original of the preliminary approval certificate.
- A subsidy application.
- Detailed final original invoices of the greenhouse acquisition and installation.
- An affidavit of the applicant to conserve the built investment for at least five (5) years as of the date of the implementation report and use them within conditions ensuring its full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

5. NETS FOR THE PROTECTION OF VEGETABLE CROPS UNDER ANTI-INSECTS GREENHOUSES

a. Percentage and ceilings

Operation	Subsidy percentage (% of the cost)	Subsidy ceiling in DH/ha
Use of protection nets for vegetable crops under anti-insects greenhouses	35%	12 000

b. Compiling of financial aid application file

Following the installation of the protection nets for vegetable crops under anti-insects greenhouses, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file consists of the following documents:

- A subsidy application form.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the property, subject to the investment.
- Detailed final original invoices of the acquisition of nets, in the name of the producer, showing the net mesh dimensions, nets quality, unit price and total acquisition sum.
- An affidavit of the applicant to conserve the investment for at least three (3) years as of the date of the implementation report and use it within conditions ensuring its full operation, highest efficiency and good maintenance.
- In the event of group procurement by the members of cooperatives, the concerned producers must provide a true certified copy of the total invoice established in the name of the cooperative, supplemented by an individual delivery slip issued by the president of the cooperative and signed by the beneficiary.
- Certificate of the applicant's RIB.

6. ANTI-HAIL PROTECTION NETS FOR FRUIT PLANTATIONS

a. Percentage and ceilings

Object	Percentage subsidy (% of the cost)	Subsidy ceiling in DH/ha
Use of anti-hail protection nets for fruit plantations (*)	40%	50 000

b. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of his project to install the anti-hail protection nets for fruit plantations, the applicant submits a file of preliminary examination application, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying notably the location of the land plot, area, concerned plantations and the estimate.

II - DEMANDE DE SUBVENTION

Following the project implementation, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file consists of the following documents:

- Preliminary approval certificate.
- A subsidy application form.
- Detailed final original invoices of the acquisition of anti-hail protection nets for the fruit plantations
- An affidavit of the applicant to conserve the investment for at least five (5) years as of the date of the implementation report and use it within conditions ensuring its full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- | | |
|-------------------|-------------------------------------|
| • Category 1 (C1) | 20 business days |
| • Category 2 (C2) | 12 business days |
| • Category 3 (C3) | 5 business days |
| • NS | not subject to preliminary approval |

2- DEADLINE TO ACHIEVE INVESTMENTS AND SUBMIT SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	FILE SUBMISSION DEADLINE	
C3	Acquisition of agricultural equipment Acquisition of breeding equipment	12 months	As of the date of the agreement in principle
	Livestock facilities	24 months	
C1	Acquisition and installation of anti-hail nets	12 months	As of the date of the preliminary approval
	Acquisition of agricultural equipment by service companies of agricultural mechanization	12 months	
	Greenhouse acquisition and installation	12 months	
NS	Protection nets for vegetable crops under greenhouse	12 months	As of the acquisition date
	Acquisition of pheromone capsules or citrus Ceratitis attractants	6 months	

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

**GENETIC
IMPROVEMENT**

1. PRODUCTION OF SELECTED BREEDERS

a. Percentage and ceilings

> Production of selected breeders of pure races

OPERATIONS		SUBSIDY AMOUNT	
		INDIVIDUAL STOCKBREEDERS	GROUPING OF STOCKBREEDERS
Sheep	Male sheep	800 DH/each	850 DH/each
	Female sheep	700 DH/each	750 DH/each
Goats	Imported race		
	Male goats	700 DH/each	750 DH/each
	Female goats	600 DH/each	650 DH/each
	Local race		
	Male goats	550 DH/each	600 DH/each
	Female goats	450 DH/each	500 DH/each
Cattle	4 000 DH/each, born as of 1 January 2019 until 31 December 2020		

b. Compiling of financial aid application file

> Production of selected breeders belonging to pure sheep and goat races

I - PRELIMINARY APPROVAL APPLICATION

Prior to the project implementation, the applicant submits a file of preliminary approval application, in duplicate, to the Single Desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons or a true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- With regard to the grouping of the National Sheep and Goat Association (NSGA): a copy of the minutes of the general meeting of the grouping's establishment, copy of the minutes of the last general meeting of the grouping or the NSGA grouping's membership certificate.
- A true certified copy of the basic contract for the multiplication of selected sheep and goat breeders within nursery units, between the representative of the stockbreeders (NSGA) and the Directorate of Production Chain Development.

The preliminary approval certificate will be granted to the applicant for the duration of the contract validity of the nursery unit and renewed in line with the procedure in force following every renewal of the said contract.

II - SUBSIDY APPLICATION

Following the project implementation, the applicant submits a subsidy application file, in duplicate, to the Single Desk. This file includes the following documents:

- A copy of the preliminary approval certificate.
- A subsidy application.
- Original of the minutes of the animal products selection (sheep and goats), established by the specialized committee appointed yearly by the Directorate of the Production Chain Development.
- Certificate of the applicant's RIB.

> Production of selected breeders belonging to pure bred cattle

I- PRELIMINARY APPROVAL APPLICATION

Prior to the project implementation, the applicant submits a file of preliminary approval application, in duplicate, to the Single Desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons or a true certified copy of the statutes and legal documents for the legal entities, designating the persons entitled to act in their names.
- A true certified copy of the original of the basic contract for the multiplication of selected dairy sheep breeders in the nursery units, between the stockbreeder or the representative of the stockbreeders (cooperatives, groupings and associations) and the DPA or the ORMVA.

II- SUBSIDY APPLICATION

Following the project implementation, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- A copy of the preliminary approval certificate
- A subsidy application form
- Original of the minutes of the animal product selection (sheep), established by the specialized committee appointed yearly by the Regional Directorate of Agriculture of the concerned region.
- RIB Certificate of the applicant to aid.

2. ACQUISITION OF CAMEL BREEDERS AND IMPORTED HEIFERS

a. Percentage and ceilings

OPERATIONS	SUBSIDY AMOUNT
Camels	5 000 DH/each

b. Compiling of financial aid application file

> Acquisition of camel breeders

I- PRELIMINARY APPROVAL APPLICATION

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons or a true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their names.

II- SUBSIDY APPLICATION

- A copy of the preliminary approval certificate.
- A subsidy application.
- A true certified copy of the subsidy contract for the acquisition of the breeding animals between the stockbreeder or the representative of the stockbreeders (cooperatives, groupings, associations) and the DPA or the ORMVA.
- An inventory form of the animals to be subsidized, approved by the concerned DPA or the ORMVA accompanied with the race purity certificate.
- Detailed final original invoices of the acquisition of animals in question.
- An affidavit to conserve the camels for a minimal period of 10 years.
- RIB Certificate of the applicant seeking aid.

3. PRODUCTION OF SELECTED QUEEN BEES

a. Percentage and ceilings

> Production of animal breeders

OPERATION	SUBSIDY AMOUNT	
	INDIVIDUAL STOCKBREEDERS	STOCKBREEDER GROUPING
Production of selected queen bee breeders	250 DH/hive of the selected queen bee breeders	300 DH/hive of the selected queen bee breeders

b. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

- Preliminary approval application.
- A true certified copy of the ID card for the natural persons or true certified copy of the statues and legal documents for the legal entities, designating the persons entitled to act in their name.
- A true certified copy of the contract of the nursery unit for the multiplication of the queen bees between the apiculturist or the representative of the apiculturists (cooperatives, groupings, and associations) and the DPA or the ORMVA.

II - SUBSIDY APPLICATION

- A copy of the preliminary approval certificate.
- A subsidy application.
- Original of the minutes of accreditation and selection of the production hives of queen bees, established by a specialized committee appointed yearly by the Directorate of Production Chain Development.
- RIB Certificate of the applicant for aid.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- Category 1 (C1) 20 business days
- Category 2 (C2) 12 business days
- Category 3 (C3) 5 business days
- NS not subject to preliminary approval

2- DEADLINES OF THE IMPLEMENTATION OF INVESTMENTS AND SUBMISSION OF SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	DEADLINE OF FILE SUBMISSION	
C2	Acquisition of camel breeders	12 months	As of the date of preliminary approval
	Production of sheep breeders Production of goat breeders Production of cattle breeders Production of queen bees	12 months	As of the date of the selection minutes

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

**CERTIFIED SEEDS
AND PLANTATIONS**

1. CERTIFIED SEEDS

1.1. CERTIFIED CEREAL SEEDS

> Marketing of certified cereal seeds

a. Percentage and ceilings

The seed corporations accredited during the agricultural years 2016-2017 to commercialize the national production of certified wheat and barley seeds (category G3, G4, R1, R2), will benefit from calculated unit subsidies to maintain the following differentials compared to the common price.

AGRICULTURAL YEAR	2018-2019	2019-2020
Soft wheat	65	65
Durum wheat	60	60
Barley	60	60

b. Compiling of financial aid application file

I - SUBSIDY APPLICATION

This subsidy is paid to seed corporations that deduct the price of seeds upon selling to farmers. The files submitted by the seed corporations to the competent services of the Agriculture Department consist of the following documents:

- A summary statement of the certificates of analysis results for the seeds of the harvest of the year and/or a summary statement of the certificates of the seed batches in stock in compliance with the norms in force, issued by the National Health Security Office for Foodstuffs (ONSSA).
- A summary statement of the carry-over stocks of cereal seeds at the end of the sales period in line with the model in force. This statement is issued by the ONSSA on the basis of the declaration of the seed corporation and following the verification at the storage centers by the regional committee comprised of the representatives of the Regional Branch of Seeds and Plants Control, the Provincial Directorate of Agriculture and/or the Regional Office of Agricultural Investment and the seed corporation.
- The total invoice of the sales itemized by species, variety and category signed by the managing director of the seed corporation.
- A declaration signed by the managing director of the seed corporation in the event of the loss or damage of seeds during the sales period in line with the model in force.

> Storage of certified cereal seeds

I - SUBSIDY APPLICATION

This aid is paid to the seed corporations having a carry-over stock. The files submitted by the seed corporations to the competent services of the Department of Agriculture are comprised of the following documents:

- A total invoice of the stocks per batch, signed by the director of the seed corporation, established on the basis of a certificate specifying the quantity eligible to storage subsidy issued by the Directorate of Production Chain Development.
- A summary statement of the stocks of cereal seed batches in compliance with the norms in force, established by the ONSSA at the beginning of the year in line with the model in force.

1.2. MONOGERM SUGAR BEET SEEDS

a. Percentage and ceilings

OBJECT	SUBSIDY AMOUNT
Marketing of monogerm sugar beet seeds	800 DH per unit (1 unit = 100 000 monogerm grains)

b. Compiling of financial aid application file

I - SUBSIDY APPLICATION

This subsidy is paid to seed corporations that deduct the seed price upon selling to farmers. The files submitted by the seed corporations to the competent services of the Department of Agriculture are comprised of the following documents:

- A summary statement of the certificates of the monogerm sugar beet seed batches, issued by the ONSSA in line with the model in force for the year importation and carry-over stock.
- A statement of the sales to farmers established in accordance with the model in force and signed by the sugar company.
- A statement of the final stock established in line with the model in force and signed by the sugar company.
- Invoice established and signed by the concerned sugar company, specifying the quantities of the sold monogerm seeds to the farmers by the seed corporation itself or the concerned sugar company, the subsidized retrocession price and the sum of the (unit and total) subsidy.
- Import invoices.
- A copy of the import commitment, stamped by the costumes office.
- A copy of the Single Goods Declaration stamped by the customs office.

1.2. RICE SEEDS

a. Percentage and ceilings

OBJECT	PERCENTAGE	SUBSIDY AMOUNT
Marketing of certified rice seeds 2015-2016 à 2019-2020	50%	600 DH/QL

b. Compiling of financial aid application file

This subsidy is paid to recognized organizations that deduct the seed price upon selling to farmers. The files submitted by these organizations to the competent services of the Department of Agriculture are comprised of the following documents:

- The total invoice of the sales itemized by species, variety and category signed by the managing director of the seed corporation, labeled on behalf of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.
- A summary statement of the certificates of analysis results for the imported rice seeds of the harvest of the year, signed by the Director of the ONSSA or his representative.
- A summary statement of the certificates related to carry-over stock of the imported rice seeds, issued by the ONSSA.
- A summary statement of the carry-over stocks of rice seeds at the end of the sales period in line with the model in force issued and signed by the ONSSA.
- A declaration signed by the managing director of the seeds organization in case of loss or damage of the imported rice seeds.
- A copy of the import commitment, stamped by the costumes office.
- A copy of the Single Goods Declaration stamped by the customs office.
- The state of sales of seed rice signed by the Director of DDFP.

2. CREATION OF NEW SUGAR CANE PLANTATIONS

a. Percentage and ceilings

OBJECT	SUBSIDY AMOUNT
The building of new sugar cane plantations	6 000 DH/ha

b. Compiling of financial aid application file

I - SUBSIDY APPLICATION

Following the successful implementation of the plantations, the applicant submits a subsidy application file, in duplicate at the Single Desk affiliated with the Provincial Directorate of Agriculture or the concerned Regional Office of Agricultural Investment. This file consists of the following documents:

- A subsidy application form.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- The administrative documents proving the legal link of the applicant with the property to be planted.
- An authenticated copy of the cultivation/aggregation contract with the sugar refinery.
- Delivery slip showing the references of the minutes of the selection committee of cane cuttings proving the acquisition and the phytosanitary status of the cuttings.
- An affidavit of the applicant to conserve the investment for at least five (5) years as of the date of the implementation report and to ensure all the conditions for the success of the plantation, subject to this investment.
- Certificate of the applicant's RIB.

3. FRUIT FARMING

a. Percentage and ceilings

OBJECTS	SUBSIDY PERCENTAGE AND AMOUNT	SUBSIDY CEILING (DH/HA)
Creation of new citrus plantations run through localized irrigation system (till 05/02/2020)	Oranges (density >= 350 plants/ha)	11 000 DH/ha
Creation of new palm grove plantations	Plantations built for the densification and rehabilitation of palm groves (1)	100% of the acquisition price of the plants
	Plantations built for the expansion of palm groves (minimal density: 100 plants/ha)	70% of the acquisition price of the plants
Creation of homogeneous olive orchards (2)	Irrigated in drip (density ≥ 285 plants/ha) as of the agricultural year 2014/2015	5 000 DH/ha
	Irrigated including in drip density < 285 plants/ha and ≥ 100 plants/ha	3 500 DH/ha
	Bour (fallow land) (density ≥ 100 plants/ha)	3 500 DH/ha
Fruit replanting	Plantation after the uprooting of the plantations damaged by fire blight (3)	12 000 DH/ha per olive tree 15 000 DH/ha per peach tree, plum tree, nectarine and cherry tree
	Replanting of citrus fruits following a contamination by Tristeza virus	28 000 DH/ha

(1) The state aid is granted to the concerned farmers in the form of plants which will be retroceded to them within the framework of the acquisition programs of plants decided on by the services of the Department of Agriculture.

(2) And (3) are not cumulative for the olive tree.

OBJECTS		SUBSIDY AND AMOUNT SUBSIDY	SUBSIDY CEILING (DH/HA)
Rosaceous plants (4)	Apple tree (minimal density: 400 plants/ha)	60% of the acquisition price of the plants	17 000
	Pear tree (minimal density: 400 plants/ha)		17 000
	Quince tree (minimal density: 200 plants/ha)		11 000
	Medlar tree (minimal density: 140 plants/ha)		7 000
	Peach/Nectarine tree (minimal density: 200 plants/ha)		10 000
	Plum tree (minimal density: 200 plants/ha)		10 000
	Cherry tree (minimal density: 170 plants/ha)		9 000
	almond tree on irrigated land (minimal density: 200 plants/ha)		5 000
	Almond tree on fallow land (minimal density: 100 plants/ha)		3 500
Argan tree	Argan tree on fallow land (minimal density: 100 plants/ha)	80% of the acquisition price of the plants	6 000
	Argan tree on irrigated land (minimal density: 200 plants/ha)		9 000
Other fruit species	Fig tree on irrigated (minimal density: 230 plants/ha)	60% of the acquisition price of the plants	6 000
	Fig tree on fallow (minimal density: 140 plants/ha)		3 500
	Pomegranate (minimal density: 200 plants/ha)		6 000
	Walnut (minimal density: 70 plants/ha)		10 000
	Carob (minimal density: 100 plants/ha)		6 000
	Pistachio (minimal density: 200 plants/ha)		8 000

(3) and (4) are not cumulative for the olive tree, cherry, peach tree, nectarine and plum tree

b. Compiling of financial aid application file

> Creation of new olive and citrus plantations

I- PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the plantation project, the applicant submits a file of preliminary examination application, in duplicate, at the Single Desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for natural persons.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying notably the area to be planted, density, irrigation mode and the estimated cost of the project.

II- SUBSIDY APPLICATION

Following the implementation of his project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- Subsidy application.
- Detailed final original invoices, issued by the accredited nursery person, showing the note "certified plants."
- An affidavit of the applicant to conserve the investment for at least five (5) years, as of the date of the implementation report and to ensure all the conditions for the success of the orchard, subject to this investment.
- Certificate of the applicant's RIB.

> Densification and rehabilitation of palm groves

As per the plantations built for the densification and rehabilitation of palm groves, the state aid is granted to the concerned farmers in the form of plants that will be retroceded to them within the framework of the acquisition programs of plants decided on by the services of the Agriculture Department.

> Expansion of palm groves

I- PRELIMINARY APPROVAL APPLICATION

Before the implementation of the plantation project, the applicant submits a file of preliminary examination application, in duplicate, at the Single Desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents for the legal entities, designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying notably the area to be planted, envisaged variety(ies), density, irrigation mode and the estimated cost of the project.

II - SUBSIDY APPLICATION

Following the implementation of his project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- A preliminary approval certificate.
- A subsidy application.
- Detailed final original invoices of vitro-plants.
- An affidavit of the applicant to conserve the investment for at least five (5) years as of the date of the implementation report and to ensure all the conditions for the success of the plantation, subject to this investment.
- Certificate of the applicant's RIB.

> Building new rosaceous fruit, Argan and other fruit species plantations

I - PRELIMINARY APPROVAL APPLICATION

Before the implementation of his plantation project, the applicant submits a file of examination application, in duplicate, at the Single Desk. This file includes the following documents:

- A preliminary approval application.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents for the legal entities, designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying notably the area to be planted, density, irrigation mode and the estimated cost of the project.

II - SUBSIDY APPLICATION

After the implementation of his plantation project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- Subsidy application.
- An affidavit of the applicant to conserve the investment for at least five (5) years, as of the date of the implementation report and ensure all the conditions for the success of the orchard, subject to this investment.
- Detailed final original invoices:
 - > Per the almond tree, these invoices must be issued by the accredited nurseryperson, showing the note "certified plants".
 - > Per the Argan tree and other fruit species, the final invoices must:
 - Bear the note "certified plants".
 - Or be issued by the accredited nurseryperson and whose phytosanitary quality is testified by the competent services. A phytosanitary certificate issued by the ONSSA to the nurseryperson is required in this case. The references of this certificate (number, date and batch...) will be shown on the final invoice.
- Certificate of the applicant's RIB.

> Replanting citrus fruits and other fruit species following a contamination by tristeza or blight fire

I - SUBSIDY APPLICATION

Following the implementation of his replanting project, the applicant submits a file of subsidy application, in duplicate, at the Single Desk. This file includes the following documents:

- A subsidy application form.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents, for legal entities, designating the persons entitled to act in their names.
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- A descriptive form of the project specifying the planted area, density and the concerned species.
- An uprooting and incineration certificate issued by the ONSSA for the farmers of the zones identified by the decision of the Minister of Agriculture and Fisheries.
- Final detailed original invoices, issued by the accredited nurseryperson, showing the note "certified and grafted plants onto a rootstock other than sour orange" for the citrus fruits and the note "certified olive tree plants" for olive tree replanting.
- An affidavit of the applicant to conserve the investment for at least five (5) years, as of the date of the implementation report.
- Certificate of the applicant's RIB.

4. LABORATORY ANALYSIS

a. Percentage and ceilings

OBJECT	SUBSIDY PERCENTAGE (% OF THE COST)	SUBSIDY CEILING
Laboratory analyses	50%	In line with the analysis type (CF. Joint decision N. 1060.90 of 29/08/1990)

b. Compiling of financial aid application file

This subsidy is paid to the laboratories that deduct it from the cost of the analyses to the benefit of the farmers upon payment.

The files submitted at the competent services of the Agriculture Department by the representatives of the laboratories are comprised of the following documents:

- Scale of tariffs applied by the laboratory.
- Copies of invoices stamped by the farmers, showing the analysis tariff and the sum of the deduced subsidy.
- Copies of analysis reports delivered to the farmers.
- A monthly summary statement showing:
 - > List of the names, with full addresses, of the farmers having benefited from the subsidy pertaining to the performed analyses.
 - > Type and number of analyses performed by the farmer.
 - > The overall amount of the deduced subsidy.
- Certificate of the applicant's RIB.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- | | |
|-------------------|-------------------------------------|
| • Category 1 (C1) | 20 business days |
| • Category 2 (C2) | 12 business days |
| • Category 3 (C3) | 5 business days |
| • NS | not subject to preliminary approval |

2- DEADLINE TO CARRY OUT INVESTMENTS AND SUBMIT SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	FILE SUBMISSION DEADLINE	
C2	Fruit plantations	12 months	As of the preliminary approval date
NS	New Sugar Cane Plantations	6 months	As of the delivery date of cuttings
	Fruit replanting following the uprooting and incineration of the plantations affected by Tristeza or fire blight	24 months	As of the date of the uprooting certificate

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

VALORIZATION UNITS

1. AGRICULTURAL PRODUCTS OPTIMIZATION UNITS

a. Optimization units of fresh agricultural vegetable production and derivative products: Percentage, ceilings and standards

Equipment designation	Subsidy percentage per unit (%)	Ceilings and standards
Seed conditioning units: building and equipping the units	10%	1 500 000
Cereal storage units: building and equipping silos	10%	3 200 000
Citrus conditioning units: building and equipping the units.	30%	6 000 000 for a capacity of less than 5.000 T/year
		14.000.000 for a capacity from 5.000 T/year to less than 10.000 T/year
		21.000.000 for a capacity of 10.000 T/year and more
Vegetables, arboricultural products and fresh fruits (except citrus) conditioning units: building and equipping the units.	30%	4.000.000 for a capacity of less than 4.000 T/year
		10.000.000 for a capacity from 4.000 T/year to less than 10.000 T/year
		15.000.000 for a capacity of 10.000 T/year and more
Construction and equipment of refrigerated storage units for agricultural products.	25%	3.000.000
Construction and equipment of refrigerated storage units for dates.	25%	800.000
Construction and equipment of olives crushing units.	10%	2.000.000
Construction and equipment of modern bottling olive oil units.	10%	1.000.000
Bottling olive oil equipment.	10%	500.000
Construction and equipment of treatment and optimization units for olive pomace.	10%	1 500 000
Construction and equipment of Optimization units for vegetable production by processing and/or preserving and/or freezing-refrigerating and/or drying and/or crushing and/or oils (except olive oil) extraction and essential oils, including the conditioning.	20%	2.000.000

b. Optimization units of fresh agricultural animal production and derivative products: Percentage, ceilings and standards

Equipment designation	Subsidy percentage per unit (%)	Ceilings
Construction of fresh milk optimization units for the production of cheese and dairy products.	30%	3.000.000
Construction of an industrial slaughterhouse of red meat with a cutting room.	30%	18.000.000
Red meat cutting units.	30%	4.500.000
Red meat processing units	30%	4.500.000
Equipment of Red meat processing units	30%	600.000
Construction of an industrial poultry slaughterhouse with cutting room.	30%	12.000.000
Construction of poultry meat cutting units with or without processing, including conditioning	10%	3.000.000
Construction of consumer egg conditioning units.	10%	600.000
Construction and equipment of consumer egg processing units.	10%	2.200.000
Construction and equipment of drying units for poultry droppings.	30%	600.000
Construction of apicultural products optimization units.	10%	500.000

c. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of his project pertaining to the installation of an optimization unit, the applicant submits a file of preliminary approval application of the project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- the applicant's identification documents (natural or legal persons).
- A document justifying the exercise of an agricultural activity.
- Administrative documents proving the legal link of the applicant with the property, subject to the project investments.
- Detailed (techno-economic) feasibility study of the project supported by estimates (with a minimum IRR of 6%), this file must be completed by:
 1. Site plans of the project establishment and implementation, approved by the competent authorities.
 2. Quotes or proforma invoices of constructions, equipment and materials provided.
- A copy of the authorization for the project realization issued by the competent authorities, or authorization to carry on the activity for existing units.

II - SUBSIDY APPLICATION

Following the implementation of the project, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file includes the following documents:

- A subsidy application form.
- Detailed final original invoices.
- A copy of the authorization or the health security accreditation issued by ONSSA.
- The applicant's commitment to respect the conditions for granting the aid for (8) years.
- The applicant's commitment to comply with applicable social and environmental laws.
- Certificate of the applicant's RIB.

2. COOPERATIVES MILK COLLECTION CENTERS

a. Percentage and ceilings

Object	Subsidy rate for cooperatives (%)	Subsidy ceiling (calculation basis)
Building milk collection centers	30%	60 000 DH
milk vats equipment		39 000 DH
Electrification and equipment with generators		60 000 DH

(*) This subsidy concerns the following zones:

- Wilayas (prefetures) of: Rabat-Sale, Grand Casablanca, Fes and Meknes.
- Provinces of: Kenitra, El Jadida, Settat, Benslimane, Khemisset and Sidi Kacem.
- Districts of: Ahfir (Prefecture of Oujda), Biougra (Prefecture of Agadir), Marrakech-Banlieue (Prefecture of Marrakech), Ksar El kebir (Prefecture of Tetouan), Louta (Province of Nador), Taroudant (Taroudant Province), Laataouia (Prefecture of El kelaâ des Sraghna), Beni-Moussa and Fkih Ben Saleh (Province of Béni Mellal) and Afouer (Province of Azilal).

For the rest of the national territory, the cost of building and equipping milk collection centers may be supported entirely by the state.

b. Compiling of financial aid application file

> Construction of newly created milk collection centers

I - PRELIMINARY APPROVAL APPLICATION

Prior to the construction of the milk collection center, the applicant submits a file of preliminary examination application, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the statutes of the cooperative (a PV of the last general meeting).
- Administrative documents proving the legal link of the applicant with the property, subject to the investment.
- Construction plan of the milk collection center approved by the competent department of the Provincial directorate or the regional office of agricultural investment.
- A presentation note of the project describing the feasibility and justification of the opportunity of the project at the local level.

II - SUBSIDY APPLICATION

Following the construction of the milk collection center, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file includes the following documents:

- A subsidy application form.
- Detailed final original invoices of the construction issued by the contractor or an estimate issued by the competent department of the provincial directorate of agriculture or the regional office of agricultural investment.
- An affidavit of the president of the cooperative to use the buildings for the exclusive use provided for by the project, subject to the subsidy application and a commitment to respect the conditions for granting the aid.
- The health security accreditation issued by ONSSA.
- Certificate of the cooperative's RIB.

> Equipment of newly created milk collection centers

I - PRELIMINARY APPROVAL APPLICATION

Prior to the equipment of the milk collection center, the applicant submits a file of preliminary examination application of the project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the statutes of the cooperative (a PV of the last general meeting).

II - SUBSIDY APPLICATION

Following the equipment, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- A subsidy application form.
- Detailed final original invoices of purchased materials, equipment and/or electrification of the center.
- The health security accreditation issued by ONSSA.
- An affidavit of the president of the cooperative to use the buildings for the exclusive use provided for by the project, subject to the subsidy application.
- Certificate of the applicant's RIB.

> Renewal of equipment of milk collection centers

I - PRELIMINARY APPROVAL APPLICATION

Prior to the renewal of the equipment, the applicant submits a file of preliminary examination application of the project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application.
- A true certified copy of the statutes of the cooperative.
- A presentation note of the project describing the feasibility and justifying the project of renewing the equipment of the milk collection center.

II - SUBSIDY APPLICATION

Following the renewal, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate.
- A subsidy application form.
- Detailed final original invoices of purchased materials, equipment and/or electrification of the center.
- The health security accreditation issued by ONSSA.
- An affidavit of the president of the cooperative to use the buildings for the exclusive use provided for by the project, subject to the subsidy application.
- Certificate of the applicant's RIB.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- Category 1 (C1) 20 business days
- Category 2 (C2) 12 business days

2- DEADLINE TO CARRY OUT INVESTMENTS AND SUBMIT SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	FILE SUBMISSION DEADLINE	
C1	Valorization units	24 months	Starting from the date of preliminary approval
C2	Milk collection centers	12 months	

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

FOR MORE INFORMATION, PLEASE CONTACT

- Single Desks of the Provincial Directorates of Agriculture and Regional Offices of Agricultural Investment.
- Information call center of MAPMDREF at 08 020 020 50.

EXPORT PROMOTION

1. EXPORT PROMOTION AND MARKETS DIVERSIFICATION OF AGRICULTURAL PRODUCTS OF VEGETABLE ORIGIN

1.1. PERCENTAGE, CEILINGS AND STANDARDS

1.1.1. EXPORTS OF FRESH VEGETABLE PRODUCTS

PRODUCTS	DESTINATION	SUBSIDY AMOUNT
Citrus fruit export	To Russia	50 DH/t for the total of the exported quantities in addition to 150 DH/t for the exported quantities in excess of the exported volumes during the reference years (as of 1 st September 2010 to 31 August 2013)
	To Ukraine, China and Arab Golf Countries	500 DH/t for the exported quantities, as of 1 st September 2017, in excess of the exported quantities during the reference year (as of 1 st September 2000 to 31 August 2001).
	Beyond EU Beyond Russia, Ukraine, China and the Arab Golf countries	500 DH/t for the exported quantities in excess of the exported volumes during the reference year (as of 1 st September 2000 to 31 August 2001)
Exportations de la tomate		750 DH/t for the exported quantities beyond the EU in excess of the exported volumes during the year starting from 1 st September 2007 to 31 August 2008.
Exportations de la fraise		500 DH/t for the total of the exported quantities beyond the EU

1.1.2. EXPORTS OF VALUED PRODUCTS

1.1.2.1. PACKAGED OLIVE OIL

CATEGORY	SUBSIDY AMOUNT DH/TON
All types except Lampante olive oil	2.000
Packaged Extra virgin (*)	4.000
Packaged Current (*)	2.000
Packaged Virgin (*)	3.000
Virgin in bulk (*)	1.000
Extra virgin in bulk (*)	2.000
Refined in bulk (*)	1.000

IN CASE OF CONDITIONING, THE OLIVE OIL MUST BE PACKAGED IN CONTAINERS OF A VOLUME LESS THAN OR EQUAL TO FIVE (5) LITERS. (*CUMULATIVE AID FOR ANY TYPE OF PRESENTATION AND ALL CATEGORIES EXCEPT LAMPANTE OIL.

1.1.2.2. PACKAGED TABLE OLIVES

i) Exports promotion

TYPE OF PREPARATION	SUBSIDY AMOUNT DH/TON
Whole olives (except «Greece»), or broken, or sliced in hermetically sealed containers of 5 kg and less	1.000
Olives in slices, or stuffed, or pitted, or «Greece» whole in hermetically sealed containers of 5 kg and less	1.500
Cracked olives «Greece» in hermetically sealed containers of 5 kg and less	2.000

ii) Markets diversification

TYPE OF PREPARATION	SUBSIDY AMOUNT DH/TON	CONDITIONS OF ELIGIBILITY
All types of table olives packaged in hermetically sealed containers of 5 kg and less	750 (*)	Subsidy granted to total volumes produced outside the following markets: France, Belgium, the Netherlands, Luxembourg, Spain, Italy and Greece.

(*)This subsidy is cumulative to those granted for the promotion of the abovementioned table olive exports.

1.1.2.3. PACKAGED OR FROZEN APRICOT

TYPE OF PACKAGING	SUBSIDY AMOUNT DH/TON
Canned apricot without sugar packaged in hermetically sealed container of 5 kg or less	1.000
Frozen apricot packaged in 20 kg or less	
Canned apricot with sugar packaged in in hermetically sealed container of 5 kg and less	1.500

1.1.2.4. OTHER VALUED PRODUCTS

PRODUCTS	SUBSIDY AMOUNT DH/TON*
- Capers - Pickles - Peppers - Other vegetables Packaged in hermetically sealed containers of 5 kg and less	2.000
- Concentrated tomato puree - Peeled tomato - Crushed tomato Packaged in hermetically sealed containers of 5 kg and less	
- Dried tomato - Tomato powder Packaged in hermetically sealed containers of 25 kg and less	2.000
Dried and/or dehydrated fruits: - Almonds - Nuts - Dates - Dried plums - Dried apricots - Dried figs - Raisins - Other dried and/or dehydrated fruits Packaged in hermetically sealed containers of 5 kg and less	2.000
Aromatic and medicinal plants Packaged in hermetically sealed containers of 1 kg and less	2.000
Spices packaged in hermetically sealed containers of 5 kg and less	2.000

(*This aid is granted per exported ton in excess of the average quantity exported during the reference seasons 2014 and 2015.

1.2. COMPILING OF FINANCIAL AID APPLICATION FILE

Subsidy application files pertaining to the promotion and diversification of agricultural products of vegetable origin are submitted, in duplicate, at the Single Desk of the Provincial Directorate of Agriculture (DPA) or (ORMVA) governing the optimization units carrying out the exports. The files consist of the following documents:

- A subsidy application form.
- The applicant's identification documents (natural or legal persons).
- True certified copies of certificates and documents justifying exports.
- True copy of the origin certificate justifying the origin from Morocco.
- Certificate of the applicant's RIB (the bank identity statement).

2. EXPORTS PROMOTION AND MARKETS DIVERSIFICATION OF AGRICULTURAL PRODUCTS OF ANIMAL ORIGIN

2.1. PERCENTAGE, CEILINGS AND STANDARDS

2.1.1. EXPORTS OF ANIMAL ORIGIN PRODUCTS

PRODUCTS	SUBSIDY AMOUNT
Hatching eggs	1 DH/Exported Kg
Day-old chicks	1 DH/Exported Kg

2.1.2. EXPORTS OF VALUED PRODUCTS

PRODUCTS	SUBSIDY AMOUNT DH/TON
- Milk creams - Fats from milk - Yoghurt - Fermented and acidified milk - Fermented and acidified cream - Powdered whole milk - Skimmed milk powder - Concentrated milk - UHT milk - Cheese	500

2.1.3. POULTRY PRODUCTS

PRODUCTS	SUBSIDY AMOUNT DH/TON
Preparations of poultry meat and offal	1.500
Frozen poultry meat and edible offal	1.000

2.2. COMPILING OF FINANCIAL AID APPLICATION FILE

Subsidy application files pertaining to the promotion and diversification of agricultural products of vegetable origin are submitted, in duplicate, at the Single Desk of the Provincial Directorate of Agriculture (DPA) or (ORMVA) governing the optimization units carrying out the exports. The files consist of the following documents:

- A subsidy application form.
- The applicant's identification documents (natural or legal persons).
- True certified copies of certificates and documents justifying exports.
- A health export certificate issued by the ONSSA (National Health Security Office for Foodstuffs).
- Single Goods Declarations of the export duly stamped by the customs office.
- Copies of transport bills in line with the transport mode (air, land, sea).
- True copy of the origin certificate justifying the origin from Morocco.
- Certificate of the applicant's RIB (the bank identity statement).

3. EXPORTS PROMOTION AND MARKETS DIVERSIFICATION OF FRESH FRUITS AND VEGETABLES, CUT FLOWERS AND ORNAMENTAL PLANTS VIA AIR ROUTES

3.1. PERCENTAGE, CEILINGS AND STANDARDS

CATEGORY	ELIGIBLE QUANTITIES
Exports Promotion and diversification of fresh fruits and vegetables, cut flowers and ornamental via air	DH/kg for exports to Western Europe except to Scandinavia, as from 1 October to 30 November and from 1 March to 30 June
	4.5 DH/kg for exports to Scandinavia, North America, the Middle East, Japan, the former Soviet Union and Eastern Europe (except tomato exports) to Canada) from 1 October to 30 September

3.2. COMPILING OF FINANCIAL AID APPLICATION FILE

3.2.1 EXPORTS PROMOTION OF FRUITS AND VEGETABLES VIA AIR ROUTES

This subsidy is paid to air carriers that would have deducted it from the tariff of airfreight or directly to the exporters who would have paid the full tariff to the air carriers for the transport of their agricultural products.

i. Files submitted by the air transporters

These files are submitted, in duplicate, at the Single Desk of the Provincial Directorate of Agriculture of Casablanca.

- A subsidy application form.
- A copy of the freight manifest established by the air carrier and stamped by the customs office.
- A summary invoice of the air bill signed by the director of the air freight or his agent.
- A copy of the bill of air transport.
- Certificate of the applicant's RIB.

ii. Files submitted by the exporter

Subsidy application files are submitted, in duplicate, by the exporter at the Single Desk whose address related.

- A subsidy application form.
- A true certified copy of the ID card for the natural persons.
- A true certified copy of the statutes and legal documents, for the legal entities, designating the persons entitled to act in their names.
- An export certificate established the EACCE.
- Copies of the air transport bills.
- A copy of the Single Goods Declaration of the exports provided by the customs office.
- Certificate of the applicant's RIB.

ONLY THE FILES ESTABLISHED WITH AIRLINES OTHER THAN ROYAL AIR MAROC ARE ELIGIBLE.

3.2.2 EXPORTS PROMOTION OF CUT FLOWERS AND ORNAMENTAL PLANTS VIA AIR ROUTES

This subsidy is paid to air carriers that would have deducted it from the tariff of airfreight or directly to the exporters who would have paid the full tariff to the air carriers for the transport of their agricultural products.

Subsidy application files pertaining to the exports promotion of fresh fruits and vegetables, cut flowers and ornamental plants via air routes are submitted, in duplicate, at the Single Desk of the Provincial Directorate of Agriculture of Casablanca. The files consist of the following documents:

- A subsidy application form.
- The applicant's identification documents (natural or legal persons).
- A copy of the air transport bill.
- A copy of the freight manifest established by the air transporter and stamped by the customs office.
- A summary invoice of the air transport bill signed by the director of the airfreight or his agent.
- Certificate of the applicant's RIB.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS TIME LIMITS TO CARRY OUT INVESTMENTS AND FILES SUBMISSION

1- DEADLINE OF FILE PROCESSING, PRELIMINARY APPROVAL

- NS not subject to preliminary approval

2- DEADLINES TO CARRY OUT INVESTMENTS AND SUBMIT SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	FILE SUBMISSION DEADLINE	
NS	Exports of agricultural products of vegetal origin	12 months	Starting from date the end of the export campaign
	Exports of agricultural products of animal origin	12 months	Starting from the export date
	Exports of fresh fruits and vegetables, cut flowers and ornamental via air routes - Files submitted by exporters - Files submitted by air carriers	12 months 24 months	Starting from the export date

Additional time may be granted if the request is made by the applicant before the expiry of the initial period.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.

**FOR MORE INFORMATION,
PLEASE CONTACT**

- Single Desks of the Provincial Directorates of Agriculture and Regional Offices of Agricultural Investment.

**AIDS TO AGGREGATION
PROJECTS**

1. IRRIGATION AND EQUIPPING FARMS WITH AGRICULTURAL EQUIPMENT

All subsidies at a preferential rate pertaining to irrigation and equipping projects with agricultural equipment within the framework of aggregation projects are awarded in two installments.

a. The First installment of this subsidy:

Is calculated on the basis of fixed rates and ceilings for the first installment. The latter is granted upon obtaining agricultural aggregation certificate and following the implementation of the investment to be subsidized.

b. The second installment of this subsidy:

Is calculated on the basis of fixed rates and ceilings for **the total subsidy (1)**, deduced from the awarded amount in **the first installment (2)**.

- This second installment is provided during the first year of delivery, by the aggregates, of their production, in view of a full discharge awarded to this end by the said aggregator.
- The application of the second subsidy installment at preferential rates is deposited by the aggregator or the aggregates at the single desk where the application file of the said subsidy was filed.
- The application of the second installment is receivable after at least a year of filing the application of the first installment and after delivery by the aggregates of their production at the level of the valorization unit of the aggregator.

1.1. HYDRO-AGRICULTURAL DEVELOPMENT

a. Percentage and ceilings

> Localized irrigation project

DESIGNATION OF OPERATION	TOTAL SUBSIDY (1)		FIRST INSTALLMENT (2)	
	RATE (%)	CEILING (DH)	RATE (%)	CEILING (DH)
Drilling and casing of wells		1 400 DH/linear meter deep		1 100 DH/linear meter deep
Drilling and casing of boreholes		2 500 DH/linear meter deep		2 000 DH/linear meter deep
Supply and installation of water pumping equipment		5 000 DH/KW installed power		4 000 DH/KW installed power
Supply and installation of main station equipment	100%	11 000 DH/equipped ha for small-scale farmers (≤ 5 ha)	80%	5 600 DH/equipped ha
		7 000 DH/equipped ha for other farmers		
Supply and installation of supply pipes and water irrigation distribution		12 000 DH/equipped ha		9 600 DH/equipped ha
Supply and installation of irrigation water pipes and distributors		17 000 DH/equipped ha		13 600 DH/equipped ha
Total off-basin project ceiling		45 000 DH/equipped ha		36 000 DH/equipped ha
Irrigation water storage basins	100%	60 DH/m ³ storage capacity for small-scale farmers (≤ 5 ha)	80%	35 DH per m ³ storage capacity
		40 DH/m ³ storage capacity for other farmers		
Total basin ceiling		20 000 DH/equipped ha		16 000 DH/equipped ha

> Supplementary irrigation project

DESIGNATION OF OPERATION	TOTAL SUBSIDY (1)		FIRST INSTALLMENT (2)	
	RATE (%)	CEILING (DH)	RATE (%)	CEILING (DH)
Drilling and casing of wells	70%	1 120 DH/linear meter deep	50%	800 DH/linear meter deep
Drilling and casing of boreholes		1 680 DH/linear meter deep		1 200 DH/linear meter deep
Supply and installation of water pumping equipment		3 500 DH/KW installed power		2 500 DH/KW installed power
Supply and installation of irrigation water filtration and fertigation equipment		4 900 DH/equipped ha		3 500 DH/equipped ha
Supply and installation of supply pipes and water irrigation distribution		11 200 DH/equipped ha		8 000 DH/equipped ha
Total off-basin project ceiling		28 000 DH/equipped ha		20 000 DH/equipped ha
Irrigation water storage basins	70%	28 DH/m ³ storage capacity	50%	20 DH per m ³ storage capacity
Total basin ceiling		14 000 DH/equipped ha		10 000 DH/equipped ha

- > A signed and stamped detailed plan of the installation at an appropriate scale along with the note approved by the engineer having conducted the study.
- > A detailed plan of the basin at an appropriate scale along with a stability note for basins of total capacity of over 10 000 m³, manufacturing process and safety devices.
- > A shelter plan specifying their dimensions and planned construction materials.
- > A dimensioned drawing if the relief is significant.
- > An estimate of the equipment, materials and developments.
- > A true certified copy of the qualification of the businesses having elaborated the estimates and which will initiate the implementation of the works.
- > Affidavit of a supplier or (s) to comply, in case of localized irrigation projects, with the provisions laid down in the specifications, subject to the Moroccan Norm N. 12.1.100-2007 (localized irrigation installation-general requirements).
- > Test bulletins of hydraulic performances of the meters of irrigation systems and polyvinyl and polyethylene chloride pipes provided for by the project (ducts with built-in drippers, drippers, calibrated nozzles, micro jets, mini diffusers and sprinklers), issued since less than two years, by the experimentation, test and standardization department of the Ministry of Agriculture, Marine Fisheries, Rural Development and Water and Forests.
- > Catalogs of pumping and filter units provided for by the project.
- An aggregation certificate for the aggregator and aggregates.

b. Compiling of financial aid application file

I - PRELIMINARY APPROVAL APPLICATION

Prior to the implementation of the irrigation project to equip agricultural properties with localized and supplementary irrigation systems, the applicant submits an examination application file of the irrigation project, in duplicate, at the Single Desk. This file consists of the following documents:

- A preliminary approval application of the irrigation project.
- A true certified copy of the ID card of the applicant.
- A true certified copy of the statutes and legal documents for the legal entities designating the persons entitled to act in their name.
- Administrative documents proving the legal link of the applicant with the ownership of the land plot subject to the project investment.
- Technical file of the project, which must contain the following elements:
 - > A signed and stamped calculation note of the project showing the note approved by the engineer having conducted the study as well as bearing the references of the company (corporate name, N. of the trade register, telephone, fax and address) that carried out the project study.
 - A true certified copy of the qualification or approval certificate of the company or the consulting firm having carried out and approved the calculation note.
 - With regard to the consulting firms not established in Morocco, the abovementioned qualification or approval certificate can be replaced by an equivalent document issued by the competent authorities of the home country or, where necessary, a note about the know-how and capacities of the company to carry out the required studies supported by human and material resources, technical and financial references and the certificates of good completion.

II - SUBSIDY APPLICATION

(a) 1st Installment

Following the implementation of investments, the applicant submits a subsidy application file, in duplicate, at the Single Desk. This file includes the following documents:

- Preliminary approval certificate of the project in question.
- A subsidy application form.
- Detailed final invoices.
- An affidavit of the applicant to conserve the investment and maintain it in a good operating state, for at least 5 years, as of the date of the implementation report of works.
- Certificate of the applicant's RIB.

(b) 2nd Installment

The second installment of the subsidy application is receivable upon at least a year of filing the first installment application. The subsidy application file of the second installment is comprised of:

- A second installment subsidy application.
- For the aggregates: a full discharge awarded by the aggregator, testifying that the delivery of the aggregate's production at the level of the valorization unit of the aggregator and specifying the total delivered quantity.
- For the aggregator, a satisfaction certificate of the commitments of the aggregator to the aggregates, signed by the director of the Provincial Directorate of Agriculture hosting the valorization unit subject to the project or his deputy. This certificate is drawn up on the basis of a report provided by the aggregator.

1.2. EQUIPPING FARMS WITH AGRICULTURAL EQUIPMENT

a. Percentage and ceilings

EQUIPMENT	TOTAL SUBSIDY		FIRST INSTALLMENT	
	PERCENTAGE (%)	CEILING (DH)	PERCENTAGE (%)	CEILING (DH)
Agricultural tractors	40	96 000	30	72 000
Labor and maintenance equipment of soil tillage including the roller except for the cover crop	40	22 000	30	17 000
Labor and maintenance soil equipment powered by power take-off	40	96 000	30	72 000
Supply and organic manure spreading equipment	40	64 000	30	48 000
Supply and minerals spreading equipment	40	26 000	30	19 000
(simple and combined) seeding and planting equipment	70	67 000	50	48 000
Phytosanitary processing equipment for plantations	70	84 000	50	60 000
Phytosanitary processing equipment for arable lands other than plantations	70	39 000	50	28 000
Combine harvester	30	312 000	20	208 000
Potato harvester	40	16 000	30	12 000
Mowing equipment	40	22 000	30	17 000
Bundling equipment	40	48 000	30	36 000
Threshing, windrowing and tilling equipment	40	22 000	30	17 000
Self-propelled beet and sugarcane harvester	40	960 000	30	720 000
Sugar beet leaf stripper	40	90 000	30	70 000
Sugar beet sweeping machine	40	100 000	30	80 000
Sugar beet pick-up loader	40	240 000	30	180 000
Mechanical vibrator for olive harvest	40	320 000	30	240 000
Self-propelled harvester for olive	40	640 000	30	480 000

b. Eligibility norms

EQUIPMENT	NORMS
Agricultural tractors	1 unit per area of less than 5 ha
	2 units per area of 5 ha to less than 10 ha
	3 units per area of 10 ha to less than 20 ha
	4 units per area of 20 ha to less than 50 ha
	5 units per area of 50 to 100 ha 1 unit per all 100 supplementary hectares beyond 100 ha
Labor and maintenance equipment of the soil tillage including the roller except for the cover crop	4 units per tractor
Labor and maintenance soil equipment powered by power take-off	4 units per tractor
Supply and organic manure spreading equipment	1 unit per tractor
Supply and minerals spreading equipment	1 unit per tractor
(simple and combined) seeding and planting equipment	1 unit per tractor
Phytosanitary processing equipment for plantations	1 unit per tractor
Phytosanitary processing equipment for arable lands other than plantations	1 unit per tractor
Combine harvester	1 unit per area of 50 ha to less than 200 ha
	2 units per area of 200 ha to 400 ha 1 unit per all 200 supplementary hectares beyond 400 ha
Potato harvester	1 unit per tractor
Mowing equipment	1 unit per tractor
Bundling equipment	1 unit per tractor
Threshing, windrowing and tilling equipment	1 unit per tractor
Self-propelled beet and sugarcane harvester	1 unit per area of 10 ha and more
Sugar beet leaf stripper	1 unit per tractor
Sugar beet sweeping machine	1 unit per tractor
Sugar beet pick-up loader	1 unit per tractor
Mechanical vibrator for olive harvest	1 unit per area of more than 20 ha
Self-propelled harvester for olive	1 unit per area of 40 ha to 100 ha
	1 unit per all 100 supplementary hectares beyond 100 ha

C. Compiling of financial aid application file

I - APPLICATION FILE OF AGREEMENT IN PRINCIPLE

Prior to the acquisition of the agricultural equipment, the applicant to the aid (aggregator and aggregate) submits an examination application file, in duplicate, at the single desk. This file includes the following documents:

- An application of agreement in principle.
- A true certified copy of ID card for natural persons.
- A true certified copy of the statutes and legal documents for legal entities, designating the persons entitled to act in their name.
- An aggregation certificate for the applicant aggregator or aggregates.

II. SUBSIDY APPLICATION FILE

(a) 1st installment

Following the acquisition of the agricultural equipment, the applicant (aggregator and aggregate) submits a file of subsidy application pertaining to the first installment, in duplicate, at the single desk. This file consists of the following documents:

- Original of the agreement in principle issued by the Provincial Directorate of Agriculture or the Regional Office of Agricultural Investment.
- A subsidy application form.
- Administrative documents of the exploited area for subsidy applications pertaining to the agricultural equipment concerned by the area norms.
- True certified copies of the logbook of tractors which the farmer has on the farm for subsidy applications pertaining to the acquisition of towed equipment.
- Detailed final original invoices, bearing the technical characteristics of the equipment (serial number, type, power, brand and model...).
- A true certified copy of the log book or the submission receipt of the registration file for the agricultural tractor, combine harvester and self-propelled harvester for olives.
- An affidavit of the applicant to conserve the acquired equipment for at least 5 years as of the date of the implementation report, and use them under conditions ensuring their full operation, highest efficiency and good maintenance.
- Certificate of the applicant's RIB.

(b) 2nd installment

The application of the second installment is receivable after at least a year of filing the first installment application. The subsidy application file of the second installment is comprised of the following:

- A second installment subsidy application.
- For the aggregates, a full discharge is awarded by the aggregator and testifying the delivery of the aggregate's production at the level of the valorization unit of the aggregator and specifying the total delivered quantity.
- For the aggregator: a satisfaction certificate of the aggregator's commitments to the aggregates signed by the managing director of the provincial directorate of agriculture hosting the valorization unit or his deputy.

2. LUMP SUM SUBSIDY

a. All inclusive subsidies for vegetable sectors

AGRICULTURAL AGGREGATION PROJECT TYPE	AMOUNT (DH)
Aggregation project of citrus fruits around a packaging and/or processing unit	1 500 DH/ha
Olive tree aggregation project around a grinding up unit	Fallow land 450 DH/ha Irrigated land: 1 100 DH/ha
Olive tree aggregation project around an olive canning unit	Fallow land 250 DH/ha Irrigated land: 650 DH/ha
Aggregation project of fruit arboriculture around a refrigerated storage and/or packaging and/or processing unit	1 500 DH/ha
Table grape Aggregation project around a packaging unit	1 500 DH/ha
Date palm aggregation project around a packaging and/or refrigerated storage and/or processing unit	3 000 DH/ha or 3 000 DH/80 feet
Aggregation project of vegetable crops around a refrigerated storage unit	3 500 DH/ha
Aggregation project of vegetable crops around a packaging and/or processing unit	3 500 DH/ha
Aggregation project of vegetable crops around a complex incorporating a packaging unit and deep-freezing unit	3 500 DH/ha
Winter cereals aggregation project (durum wheat, soft wheat, barley) around a grain storage and/or processing unit	Fallow land 4 00 DH/ha Irrigated land: 550 DH/ha
Aggregation project of irrigated spring cereals (rice, maize) around a grain storage and/or processing unit	Rice 800 DH/ha Maize 550 DH/ha
Legume aggregation project around a storage and/or packaging unit	500 DH/ha
Aggregation project of oil-producing crops around a grinding-up unit	1 955 DH/t
Aggregation project of sugar crops around a processing unit	550 DH/ha
Aggregation project of cereal seeds around a packaging unit	650 DH/ha
Aggregation project of organic citrus fruits around a packaging unit	2 000 DH/ha
Aggregation project of organic olive trees around a grinding-up unit	950 DH/ha
Aggregation project of organic vegetable crops around a packaging unit	4 000 DH/ha
Argan aggregation project around an extraction and/or processing unit	3 400 DH/ha
Saffron aggregation project around a packaging and/or refrigerated storage and/or processing unit	5 000 DH/ha
Aggregation project of perfume rose around a processing and/or packaging unit	5 000 DH/ha

b. All inclusive subsidies for animal sectors

AGRICULTURAL AGGREGATION PROJECT TYPE	AMOUNT (DH)
Aggregation project of bovine red meat around a feedlot and/or slaughterhouse unit	350 DH/each
Aggregation project of ovine and caprine red meat around a feedlot and/or slaughterhouse unit	28 DH/each
Aggregation project of camel red meat around a feedlot and/or slaughterhouse unit	800 DH/each
Cow milk aggregation project around a dairy processing unit	280 DH/each
Goat milk aggregation project around a dairy processing unit	50 DH/each
Camel milk aggregation project around a dairy processing unit	900 DH/each
Aggregation project of white meat around a poultry slaughterhouse	1 000 DH/ton
Egg aggregation project around an egg packing unit	750 DH/ton
Apiculture aggregation project around a honey extraction and packaging unit (honey house)	7 500 DH/ton

c. Compiling of financial aid application file

The aggregator submits yearly at the provincial directorate of agriculture hosting the optimization project a file of all inclusive subsidy application per installment. This file includes the following documents:

- A submitted lump-sum subsidy application of the concerned installment:
 - > With respect to the vegetable sector: two months prior to the crop harvest or plantation, subject to the aggregation.
 - > With regard to the animal sector: prior to 15 September or before 15 February.
 - > A copy of the certificate of the aggregator.
 - > A nominative summary note of the information about the record held by the aggregator specifying in particular the aggregates having delivered their production for the elapsed crop year, the total quantity delivered by the aggregates, area (number of livestock) of the aggregates having delivered their production.

The applications cannot on any account be carried forward to the following year.

STEPS AND DEADLINES OF FILES PROCESSING AS WELL AS THE TIME LIMITS TO CARRY OUT THE INVESTMENTS AND FILE SUBMISSION

1- DEADLINE TO PROCESS PRELIMINARY APPROVAL FILE/AGREEMENT IN PRINCIPLE

- Category 1 (C1) 20 business days
- Category 2 (C2) 12 business days
- Category 3 (C3) 5 business days
- NS not subject to preliminary approval

2- DEADLINE TO CARRY OUT INVESTMENTS AND SUBMIT SUBSIDY APPLICATION FILES

CATEGORY	OBJECT OR OPERATION	FIRST INSTALLMENT		SECOND INSTALLMENT
		FILE SUBMISSION DEADLINE	FILE SUBMISSION DEADLINE	FILE SUBMISSION DEADLINE
C1	Hydro-agricultural developments (irrigation) - Individually carried out projects - Projects carried out by tranche	24 months 30 months	As of the preliminary approval date	At least 12 months after the submission of the subsidy application file of the first installment and following the production delivery.
C3	Acquisition of agricultural equipment	12 months	As of the date of the agreement in principle	
NS	Lump sum subsidy	In line with the project progress		

Additional deadlines may be granted if the application is carried out by the applicant prior to the expiry of the initial time limit.

3- DEADLINES TO PROCESS SUBSIDY AND PAYMENT APPLICATION FILES

30 business days.

All files are submitted at the Single Desk against a deposit receipt.
