SOLIDARITY AND INTEGRATED AGRICULTURE PROJECT IN MOROCCO ASIMA

GLOBAL ENVIRONMENT FUND GEF

OBJECTIVES OF THE PROGRAM

Strengthen the implementation of soil conservation and biodiversity measures in selected projects targeting small farmers in targeted marginal areas.

INTERVENTION ZONE

Two (2) régions: Marrakech Safi and Souss Massa.

The program covers ten (10) provinces.

DURATION

Five (5) years : (April 2013- décembre 2018).

COMPONENTS OF THE PROJECT

The project is structured around two components:

- Capacity development of selected staff from public and private institutions involved in planning and implementing soil and biodiversity conservation in Pillar II projects.
- Transfer of soil conservation and biodiversity measures to small farmers in both target regions.
