# Climate Change Integration Project in the Implementation of the Green Morocco Plan (PICCPMV)

## Global Environment Facility GEF

### OBJECTIVES OF THE PROGRAM

Strengthen the capacities of public and private institutions and farmers to face climate change.

### INTERVENTION ZONE

The regions of Gharb-Chrarda-Beni Hssen, Rabat-Salé-Zemmour-Zaer, Chaouia-Ouardigha, Doukkala-Abda and Tadla-Azilal.

### DURATION

Five (5) years from 2011 to 2015.

### COMPONENTS OF THE PROGRAM

The project revolves around two components:

Component 1: Capacity development of public and private institutions to adopt climate change adaptation measures into projects targeting smallholder farmers in five targeted regions.

Component 2: Spreading of climate change adaptation measures to small farmers.
